poetic objects *for essential living*

Førs Studio is a female-led product design company based in Canada with a focus on sustainability.

Our intent is *essentially poetic*. We believe in the power of thoughtful objects to infuse soulful meaning into our lives — through our love of *form, function and timelessness*, graced with sensual beauty. Inspired by our shared *humanity*, we design everyday objects that bring us joy. These are never many, but just enough — *and that is plenty*.

Our line of sensual dishes was conceived as an expression of what we believe in — the value of a shared meal, the beauty of deep and lingering conversation and the understanding that these are the moments that carry true meaning. Intentionally considered as an interplay of forms, førs balances the practical with the poetic to inspire soulful living.

Passionately designed in Canada for unapologetic use.

*førs* dishes are designed in Canada with the *highest standards of quality* at heart, to withstand unapologetic usage and meet global hospitality expectations.

**MATERIALITY**

Our tableware is made of Vitreous China, also called new bone china — considered one of the strongest ceramic bodies in the world. Our clay mixture, with its elevated alumina content, ensures long lasting performance and optimal chip resistance. Our glaze, artisanally applied for a soft and unique finish, is high-fired and fully vitrified for durability, preventing cracks from temperature fluctuations.

**CUSTOM DESIGN**

At the core of førs is a dynamic experimental energy that moves with intention, creating graceful designs grounded in permanence. Beyond our own products, we design with a customized approach from concept, forms, and colors to fulfill client and project needs — with an elasticity of mind and process. Made to order colors and fully customized designs are available at higher quantities.

## WOOD MATERIALITY &amp; CARE

Our trays combine artisanal craftsmanship to deliver slim, rounded edges and solid wood for strength and durability. Built to last, they are handcrafted with exotic wood from self-sustaining forests.

Our wood items boast a raw finish that showcases the natural grain of the wood — sincerely. Wipe with a soft, dry cloth to maintain the grain.

To remove stains, wash with mild dish soap, a gentle cloth and warm water, and dry immediately. An occasional application of a food safe vegetable oil (walnut or coconut) or mineral oil will help prevent stains and preserve a smooth, rich lasting finish.

Do not soak or microwave wood items to avoid cracking, distorting and warping.
